Thanks, Ed! Much appreciated.

I will follow those instructions and let you know what happens.

John

Hi John,

I talked to Jeannine at the meeting and the instructions that you have are the way to go. She explained to me that instead of leading to a Relativity based review, they will be in .pst.

Which is easier. They tell me. I have not had much practice in it. My suggestion is to try it and see what comes up. Feel free to contact me if I can help. I may have to ask someone else for help but that's okay too.

Ed

At this time, does this mean I do not have to follow the steps Virginia Thompson outlined in her July 13 email to me?

Thanks!
John

Hi John,

Jeannine, Rita's right hand person, sent me a long email chain containing this:

Great news! We're not going to have to review these 12 records in Relativity. We will receive them in a PST file, like the good ole' days!!!! We'll go over the instructions for accessing when Virginia sends the email. I'm so excited! :) This should make this process quicker and less painful, at least that's my hope.

I'll talk to her or Rita and see what's going on with your emails. It sounds like we're waiting for Virginia. We don't want to get overconfident, but 12 emails sounds manageable.

Thanks,

Ed
